Spend Wise

Spend Smart. Save More. Live Better.

A simple budgeting app for young people in Kenya

The problem

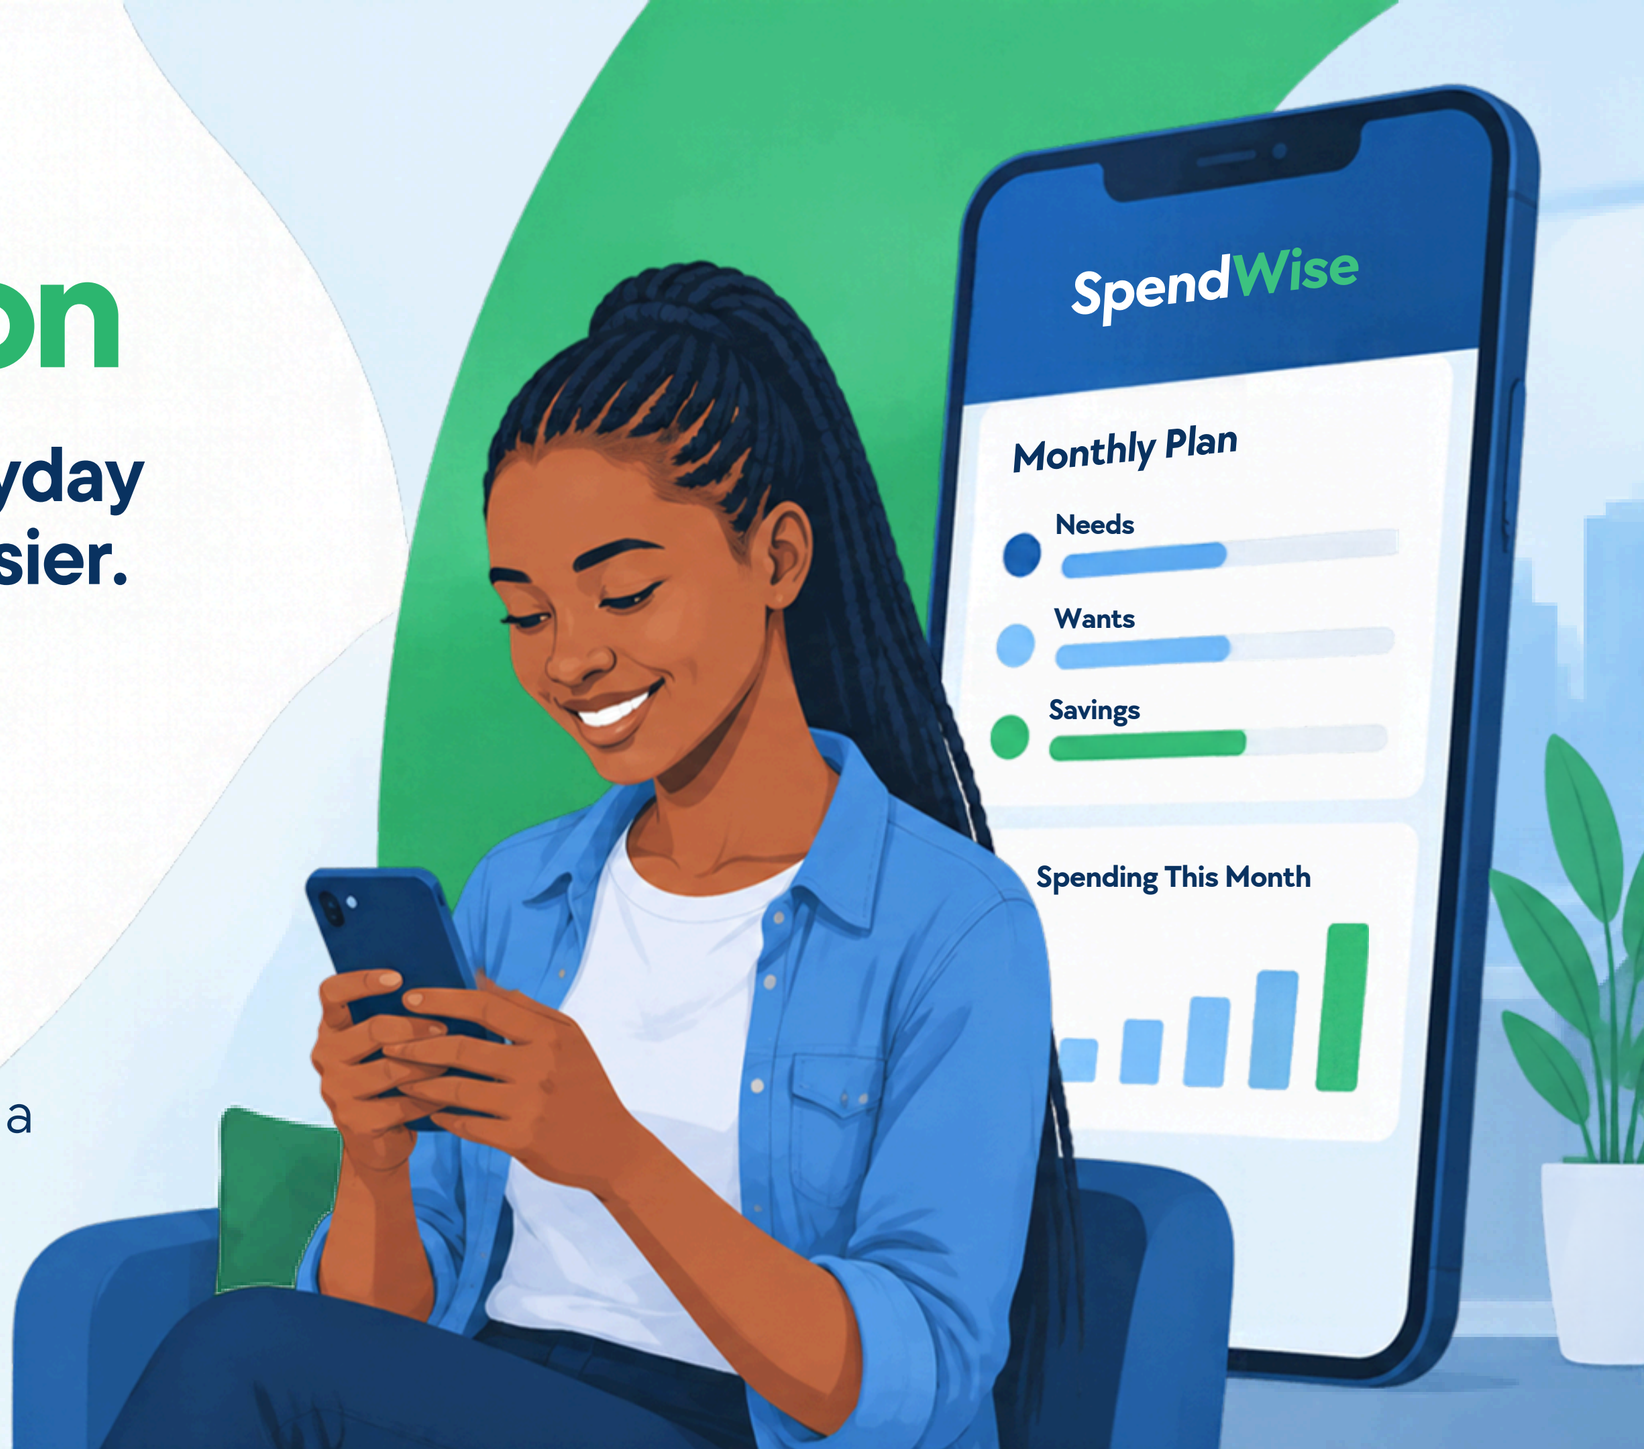
**Many young people receive money,
but struggle to understand where it goes.**

- Poor money management makes it hard to plan ahead.
- Unplanned spending leaves little room for essentials.
- Daily expenses are difficult to track.
- Many young people have not built saving habits.
- Money can run out before the month ends.

The solution

SpendWise makes everyday money management easier.

- Manage money in one place.
- Control daily spending.
- Plan a monthly budget.
- Build better saving habits.
- Understand financial activity at a glance.



Meet the product

A practical budgeting app built around daily money decisions.

- Personal budgeting dashboard.
- Daily expense tracking.
- Budget categories.
- Savings goals.
- Financial reports.

Who we serve

Students and young adults are our first focus in Kenya.

- University and college students.
- Young professionals.
- Young adults managing money independently for the first time.
- People beginning their financial independence journey.

Market opportunity

A large audience is entering a more digital financial world.

- Kenya's university and college student population: verified statistic to be sourced.

- Young working adults: estimate to be clearly labelled and sourced.

- Smartphone and digital financial-service use: verified statistic to be sourced.

The alternatives

M-PESA financial services

Digital financial services; budgeting fit depends on the user's needs.

Money Manager and Wallet by BudgetBakers

Budgeting tools; SpendWise can focus on Kenyan students and beginners.

Notebooks and spreadsheets

Flexible manual tracking; SpendWise can make tracking easier to maintain.

Our advantage

SpendWise makes money management simple for everyone.

- A simple, beginner-friendly interface.
- Designed around students and young adults.
- Easy expense tracking.
